

Mahanalua Nui Owners

Our mission includes the protection of the health, safety, and welfare of the community. And, to that end, a crisis situation calls for proactive preparation, and rapid response. Actions taken in advance can go a long way. We currently have a potential time bomb in our community, drought conditions, no water, a procedurally system that cannot or will not come to our aid in a timely fashion and most importantly a Fire Safety hazard to everyone.

Your association Board of Directors, neighboring Associations, and Launiupoko Irrigation Company (LIC) has been meeting and working on one goal, getting water to our constituents. What we have produced is not a permanent fix and may not be long enough fix for the PUC to act but it does accomplish our goal, to get water to everyone quickly. The plan is for all Launiupoko HOA's to jointly donate the fuel supply to pump water from the ground. We have been assured that the fuel we are jointly donating will be adequate to get **water to everyone beginning Monday** . We will continue the two Day a week alternating schedule so that we can monitor the usage and consumption.

We are also reviewing equipment upgrades that will not only allow for 24/7 pumping capability but reduce fuel costs, increase reliability, eliminate noise issues, and make permanent fixes. Be assured we are not proposing to pay for this upgrade but may look at other options to get this accomplished on your behalf.

We appreciate the letters of support to the PUC you have sent and be assured we will continue to work on your behalf until this issue is resolved.

Thank You,

Your Board of Directors
